Hi Jorine,

This is a photo of equipment that ENVIRON is using to survey the soil sample and boring locations at the Malibu High/Middle and Juan Cabrillo Elementary School property. The work is being conducted in accordance with the Preliminary Environmental Assessment (PEA) that was conditionally approved by DTSC on 6/27/2014.

The PEA investigation started on 6/30/2014 and is expected to be completed by 8/8/2014. I will forward a copy of the Malibu School field work schedule in a separate email.

Please let me know if you have any additional questions.

Thank you, Maria

Can anyone help with this request id'ing this picture from California Safe Schools? This seems like a piece of sampling equipment or surveyor of some sort. She said it was on the Malibu campus this morning.

Steven, Jorine and Deldi,

Can any of you identify the attached device being used at Malibu this morning? My cell is not cooperating with charging, so if you need to reach me immediately, the best way is 818.785.5515. Thanks so much!

Warm Regards,

Robina
